SITUATION SUMMARY

7.8 Magnitude Earthquake, Kathmandu, Nepal

Per Cal OES Fire Branch, 4/26/15 at 1840 hours:

Update from FEMA HQ US&R Program Office

- CA-TF2 (USAID / OFDA designation: USA-2) has been upgraded from their original USAID / OFDA "Mobilization Order", and is now being deployed with the following change in configuration: USA-2 is now configured as an INSARAG-Classified Medium US&R Team consisting of 57 personnel to include 6 Canine Search Teams.
- On Sunday 4/26/15, CA-TF2 was at March Air Force Base undergoing a joint inspection of their equipment cache, with an anticipated departure that night at approximately 2100 hours. The USA-2 Task Force Leader anticipates that USA-2 will arrive in Nepal sometime Wednesday morning local time.
- VA-TF1 and CA-TF2 will now only be able to provide a Type 3 Task Force for national deployment while they are engaged in this international deployment.
- The US&R Branch continues to coordinate with NGA and other Subject Matter Experts in support of USAID / OFDA's US&R mission.
- US&R team from Fairfax County, VA (VA-TF1, identified by USAID/OFDA as USA-1), deployed to Nepal Sunday morning, 4/26/15, from Dover AFB. USA-1 is still in transit. The USA-2 Task Force Leader advised that USAID / OFDA anticipates that USA-1 will arrive in Nepal sometime Tuesday local time.

Situation

- At 2311 hours on 04/24/15 a 7.8M EQ occurred in Nepal, approximately 40 miles away from the capital of Kathmandu. The EQ was also felt in Pakistan, India, Tibet, Bangladesh, and China. The earthquake and its aftershocks have resulted in a significant number of fatalities and injuries, with widespread damage to buildings and infrastructure. **Per multiple media sources on 4/27/15, officials report more than 4,000 have been confirmed dead and over 5,000 have been injured.**
- On Sunday, 4/26/15, Governor Edmund G. Brown Jr. approved the deployment of Urban Search and Rescue Task Force 2 (CA-TF2) through the California Governor's Office of Emergency Services (Cal OES) to aid in the response to the devastating 7.8 magnitude earthquake that struck central Nepal. At the request of the U.S. Agency for International Development, Office of U.S. Foreign Disaster Assistance, Federal Emergency Management Agency and Nepalese officials, CA-TF2, which consists of 57 personnel, will assist local emergency operations in and around the hardest hit areas of the country conducting search and rescue operations.

SITUATION SUMMARY

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A ridge of high pressure over the West Coast will bring dry weather and interior temperatures well above normal today. Expect interior temperatures to cool Tuesday and Wednesday as the ridge shifts inland and a trough passes over the Pacific Northwest. Interior temperatures will trend upward the second half of the week as high pressure dominates the weather pattern.

Medford Weather:

A warm air mass in the region will result in dramatically warmer temperatures today compared to yesterday. The upper level ridge shifts east ahead of the next weak front that will bring precipitation to the coast tonight. This front will bring in a cold air mass in behind it over the west side Wednesday morning.

Reno Weather:

High pressure will build today and push temperatures well above normal through Wednesday. Temperatures will likely break 80 degrees for many western Nevada Valleys with lower 70s in the Sierra Valleys. A weak trough will develop near the West Coast for the end of the week with temperatures cooling a few degrees and the possibility of thunderstorms.

San Francisco Weather:

Strengthening high pressure will bring warm and dry conditions to the entire area today. A dry cold front will approach the coast by Tuesday resulting in increasing onshore flow and a modest cooling trend Tuesday and Wednesday. Dry and seasonable weather is then forecast from Wednesday through the upcoming weekend.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

High pressure will bring dry weather and above normal temperatures to the area through the week.

Hanford Weather:

Dry weather and above normal afternoon temperatures can be expected over the central California interior through at least Thursday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Gusty north to northeast winds will bring warm and dry conditions to the area through Tuesday. For the second half of the week, a weak low pressure system will approach the West Coast. This low will bring cooler temperatures and a gradual increase in the night and morning clouds and fog.

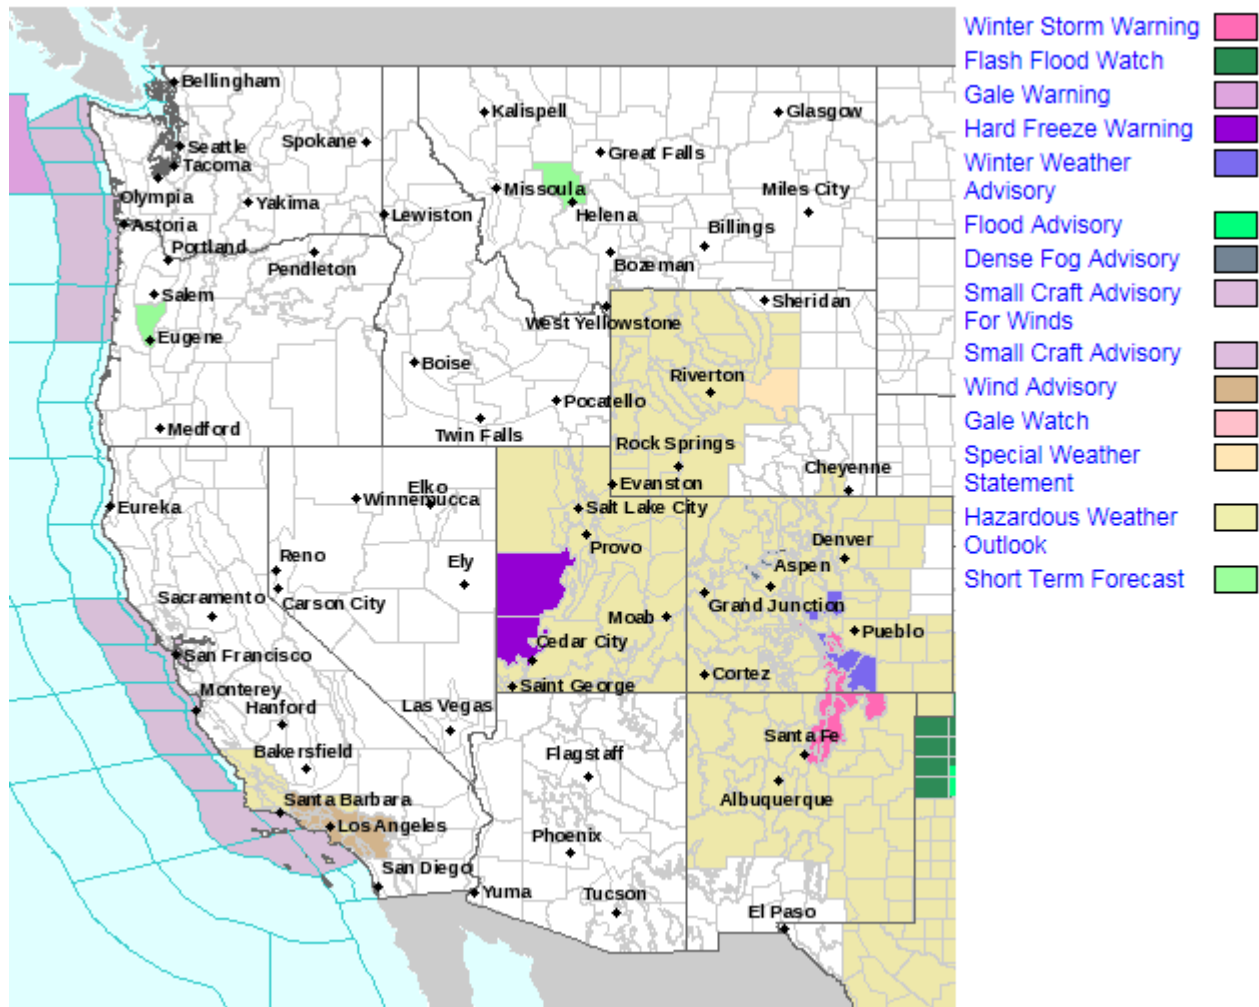

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure off the California coast will move inland bringing a warming trend through midweek. Surface high pressure over the Great Basin will bring locally strong gusty northeast winds below the Cajon Pass and near the coastal foothills of the Santa Ana Mountains this morning. Onshore flow will return during the middle of the week and continue into next weekend. Cooling will develop near the coast and spread inland the latter half of the week along with a return of night and morning coastal low clouds and fog.

Southeast California Weather:

Dry weather with a significant warming trend will commence rapidly this week with temperatures across the lower deserts approaching the 100 degree mark during the midweek time frame.

RECOVERY ACTIVITIES

Round Fire, Mono County

- Reduced to three crews working today. Department of Toxic Substance Control (DTSC) removed hazardous waste found during debris removal operations and de-mobilized from the site. AJ Diani completed removing debris from their last site and will be demobilizing tomorrow.
- Three crews worked on 3 home sites. Debris removal was completed at 1 home site today. Air remedial and personnel monitoring activities continue in the work area and surrounding community. Two tree falling crews continued to remove, buck, and chip hazard trees on the private home sites. Confirmation samples were collected from the completed site.
- Debris removal completed at 1274 Swall Meadows.

Project Totals as Day 23:

37	Homeowners who registered for the removal project.
4	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
36	Debris removal completed.
35/26	Confirmation sampling completed/approved.
19	Tree Removal Completed (35 homes have hazard trees).
0	Erosion Control Completed.
0	Approved by County for Building Permit.

Estimated Daily Tonnage:

Category	Day 23
Debris/Ash	0
Soil Disposed	149
Metal Recycled	0
Concrete Recycled	391
Total	540

Estimated Project Total Tonnage for the Project as of Day 23:

Category	Total Tons
Debris and Ash Disposed	3,441
Soil Disposed	4,444
Metals Recycled	1,476
Concrete Recycled	3,838
Total All Categories	13,199

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 54 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 24 Counties: El Dorado, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
